

GCI Consultants, LLC

GLAZING INSPECTION PROCESS

We are Solvers and Preventers of Building Envelope Problems

Inspection & Report Process

1

PLANNING & SCHEDULING

Gather all relevant information about building and on-site contacts

Digitize floor plans and window elevations

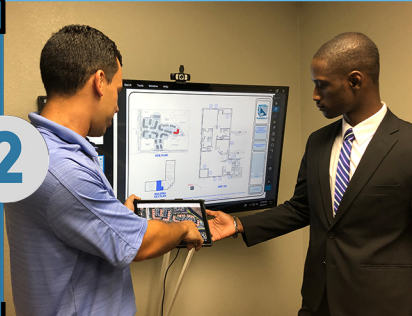

ON-SITE PROJECT KICK-OFF

Plan and coordinate inspection

Confirm layouts and glazing systems

Prepare and inform residents of inspections

Create digital floor plans

2

GLAZING INSPECTION

GCI professionals conduct inspections

Document findings with digital images on iPads

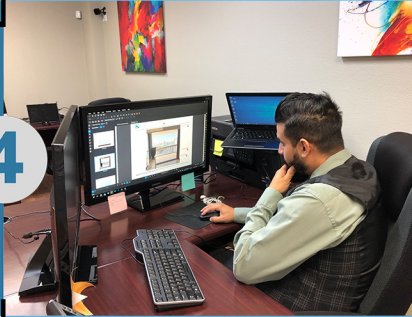

3

EXPERT REVIEW

Final review of digital data

GCI will co-author reports with second expert review when required

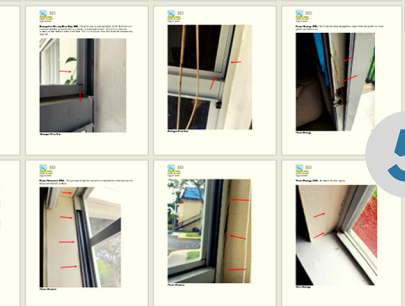

4

FINAL INSPECTION REPORT

Produce comprehensive report with detailed damage photos and findings

Deliver final digital report electronically

5
