

Pradel Frank, EI
Associate Consultant

Pradel Frank joined the GCI Consultants team in November of 2018 as an engineering assistant to the CEO. His experience since then has revolved around assisting with glazing inspections, forensics, and litigation. Pradel is a mechanical engineer holding a bachelor's degree from Florida International University and came to us with prior engineering work experience. His current role is to perform structural, building envelope and glazing inspections for damage assessment and to include quality control, and report writing.
