PROFESSIONAL PROFILE

Rolando Tato is a Consultant with GCI Consultants. He has over 6 years of experience in the evaluation of glazing products. With his background as glazier and iron worker he has worked on a diverse range of both small and large projects around United States and abroad. He has worked on multiple projects inspecting and testing building envelope elements for new construction. As Project Manager in the hurricane claims division, he manages the logistics for the field tasks and preparation of deliverables. He puts together damage reports for single home residences, multi building properties and high rises. In addition, he has assisted in multiple forensic investigations of existing structures. This makes Rolando a versatile consultant.

PROFESSIONAL EXPERIENCE

2020 – Present: Consultant/Project Manager (GCI Consultants)
2018 – 2020: Report Production Drafter (GCI Consultants)
2016-2018: Field Test Technician (GCI Consultants)
2014 – 2016: Iron Worker/Glazier (FGCS)
